Got “Magic” Hips? Rhythmic Hips = “Magic” Hips! Dancers will learn to interpret the sounds of the drums by drilling some of Yasmine’s favorite techniques and movements to Middle Eastern Rhythms to accentuate the “Dums” and “Tek”! Drilling dance movement to these rhythms will help the dancer to feel the rhythm, gain more control and become connected to the music. Then we will put these techniques to the test with “The Rhythmic Soul Train” Exercise and “The Battle of Rhythmic Hips!”

Cutting Edge Combos: Dance moves with attitude that take the beauty of cabaret mixed with Yasmine’s own signature flare. This class will cover technique leading into Yasmine’s favorite cutting edge combinations which are suitable for a variety of styles and modern routines.

Elegant Arms & Hands: This class will focus on posture, upper body, hand and finger placement and range of motion in arm placement and positions so you can move elegantly through space. Verbal cues and combinations will also be used to help you add a graceful & fluid touch to your dance. IN this class we will also combine Elegant arms with dance movement and discuss interpreting instruments

From Combos to Choreography: This class will include technique & drilling several combinations leading into a full cabaret routine. Yasmine will also discuss her thoughts on listening to the music and a simple way of breaking down the “formula” to creating your own choreography.
